SEED AND PLANT PRICE LIST FROM

OAKDALE FARM

BIRMINGHAM, ALABAMA.

Our stock of seed came from growers who are experts in the business. No better can be bought, as we do not handle the cheap and trashy kind.

We do not sell 5c packages any more, as it is not economical to either sell or buy them. We put in our 10c packages nearly three times as much seed as is put in an ordinary 5c package.

Our plants are grown from the very best seed we can buy. No expense is spared to secure plants that will produce big crops, and we know that is what we have. Therefore, when ordering seed and plants from us, one is assured of the very best, and at reasonable prices.

Any business sent us will receive the most careful attention.

FREE KODAK FOR A FEW HOURS' WORK

Fine Eastman Kodak given to those who will sell \$10.00 worth of our seed or plants to their friends, sending cash with order. To take advantage of this offer you must send us your order for at least \$2.50 worth of seed or plants. Your own order does not count on the \$10.00. This is merely a method of introducing our high quality seed and plants to your friends, as there is no profit to us on this proposition

except in the repeat orders that we know we will get from your friends who once use our seed and plants.

This kodak makes 2¼ x 3¼ pictures, and can be depended upon as being strictly first class, as that is the only kind made by the Eastman people.

Just send us your own order for seed or plants amounting to \$2.50 or more, and \$10.00 worth for one or more of your friends, and the seed or plants and kodak will go forward promptly. Be sure to give the name or names of your friends to whom the seed or plants are to be shipped.

This is an opportunity to easily earn a good kodak, as all of your friends will buy seed or plants. Start to work now.
